### Societal Harms

Although economic costs of smoking in St. Kitts and Nevis are not known, the total economic cost of smoking globally amounts to 2 trillion dollars, when adjusted for 2016 purchasing power parity (PPP). This includes direct costs related to healthcare expenditures and indirect costs related to lost productivity due to early mortality and morbidity.

### Smokeless Tobacco

% using tobacco daily: 2013

### Industry

The combined revenues of the world's 6 largest tobacco companies in 2016 was more than USD 346 Billion, 39030% larger than the Gross National Income of St. Kitts and Nevis. The industry is a powerful force that does not fear the actions of nation-states because of their extensive resources and global market power.
